Woerz Bros. High Quality Stock

SHADE TREES

Ash

Arizon (Fraxinus velutina). Each year the popularity of this tree increases remarkably. Of medium size for either street or lawn purposes. Clean growth, no leaf littered lawn during late summer and early autumn. Trunk very straight, covered with grayish white, smooth bark. Young leaves dark green, very glossy. Re-sprouts on tree until coldest freezing weather. Plant to put out young trees in spring. Recommended for extensive planting in Gulf States. A rapid grower and one of the few trees beautiful immediately after shearing. Safe for coastal plantings where there are salt water spray and occasional inundations. El Paso has adopted this tree as the universal street tree. 5 to 6 ft. tall; 6 to 8 ft. \$1.00.

Catalpa

Bungei (Hibiscus catalpa). To make these we bud or graft on straight stems the dwarf variety which makes many short, spreading branches, and a rounded head without adding to the height. The foliage is very pleasing and the effect obtained when planted in pairs along walks and driveways or entrance is greatly admired. 4 to 5 ft., 1-yr. heads, \$1.00 each; \$9.00 per 10. 5 to 6 ft., 1-yr. heads, \$1.50 each; \$12.00 per 10. 6 to 8 ft., 2-yr. heads, \$2.00 each; \$15.00 per 10. 8 to 10 ft., 3-yr. heads, select, \$2.50 each; \$18.00 per 10.

Hackberry - Celtis

Ocelladensis. A native tree, with dense growth and beauty are too often overlooked. Of strong growth and bright green above and silvery beneath, turning to bright yellow and bronze in the fall. It makes a broad, bushy, but pointed top tree, setting a shadow which is valued. Can be planted in 4 to 6 ft. 50c each; 5 to 8 ft., 80c each; 8 to 10 ft., \$1.00 each; 5 for \$7.50.

Silver Maple

A hardy, rapid-growing, beautiful native tree of large size, valuable for producing a quick shade. Its leaves are good sized, rather deeply and irregularly indented bright green above and silvery beneath, turning to bright yellow and bronze in the fall. It makes a broad, bushy, but pointed top tree, setting a shadow which is valued. Can be planted in 4 to 6 ft. 50c each; 5 to 8 ft., 80c each; 8 to 10 ft., \$1.00 each; 5 for \$7.50.

VINES

CLEMATIS paniculata (Japanese White Clematis). This handsome hardy climber is one of the best and most satisfactory climbing plants. The small, creamy white, star-shaped flowers are delicately fragrant, blooming in late summer in wild profusion 2-year plants, 50c each; \$1.00 per 10.

HONEY-SUCKLE. **Hull's Japan**. Flowers pure white, changing to yellow, very fragrant; nearly evergreen, hardy and valuable 30c and 50c each.

It., Scarlet Trumpet. Hardy and vigorous 50c each.

AMPELOPIS Vitis (Boston Ivy). One of the finest climbers for covering walls, as it clings firmly to the smooth surface, covering it evenly with overlapping leaves which form a perfect blanket of foliage. The leaves turn to brilliant orange and crimson in the fall. Medium, 30c each; \$2.00 per 10. 2-year transplanted, 50c each; \$1.00 per 10.

WEDDER bell (English Ivy). The famous English Ivy, with its familiar green leaves. When you read of old ivy-maned towers, it means English Ivy. Clings to stone and grows to great height, covers walls entirely. Fine for the South, but hardy only as a ground cover where there are severe winters with sudden changes. Small plants, 50c each; \$2.00 per 10. Transplanted, 50c each; \$1.00 per 10.

PHILODENDRON. "The Wonder Vine." Also known as Devil's Ivy. We cannot say too much in praise of the value of this vine for use in fern dishes, wall pockets, or anywhere else where anything else will not bask. It is by far the best plant for use in the home as under-watering, over-watering, or any adverse conditions will little affect it. For fern dishes, plant a sufficient quantity in dish and pin the vine to the soil with greenish pins and it will root at every point and form a compact mass of green, heart-shaped leaves. Give it a trial and see for yourself. Everyone knows the value of English Ivy in the home, yet the Philodendron surpasses it by far. 20c each; larger plants, 50c.

QUEEN'S WREATH. A lovely climber from Central Mexico with beautiful rose colored flowers in racemes two feet long. The profusion of blooms is such as to give the resemblance of a dense mass of flowers. Discovered by its discoverer as the most beautiful climber he has ever beheld. This is moderately hardy and grows in the vine. The vines are killed to the ground by frost, but it quickly shoots up in the spring, and develops its flowers from June till frost. 10c each. Large heavy roots, 50c.

WISTERIA magnifica (Common Purple Wisteria). An unusual and particularly handsome variety with enormous clusters of large flowers, lavender colored. Woody vine of lighter green or purple. For pergolas, arbors, trellises, etc. Especially ornamental in early summer when they are resplendent with their arched drooping clusters of fragrant blooms. Blooms in May. 20c to 50c each.

Elm

American. A noble native tree of great size and wide spread with graceful drooping branches and handsome leaves. One of the best tree types for towering, heavy effect and wide-spread shade. In the yard itself tallpensable to shaded parks, and largely used about the sides of wide avenues. 5 to 6 ft., 10c each; 6 to 8 ft., \$1.00 each.

Chinese. The most popular tree for shade all over the country, wherever known. This Elm has been recently introduced to nurserymen by no less authority than the U. S. Government. It is a great "all-rounder," making quick shade, dense but graceful; leaves larger than 6 ft., 10c each; 6 to 8 ft., \$1.00 each.

Poplar

Nigra (Lombardy Poplar). Tall, whitelike column of a tree that grows quickly, like all Poplars, and often reaches 50 to 100 feet in height. The Lombardy Poplar is not for shade, but for ornament, making a fine effect when planted along driveways, and when planted close together the trees make a thick, very high screen. Branches always from the ground up. 1 to 6 ft., branched, 50c to \$1.00 each; 6 to 8 ft., branched, 80c; 8 to 10 ft., branched, \$1.00 each.

Willow - Salix

Weeping (S. babingtonii). Weeping Willows have for centuries been symbols of romance. They grow fast and lead themselves nicely to growing in back grounds for flower garden or lawn. Near pools or overhanging streams or ponds they are at their best, from an artistic point of view, but they thrive in a wide variety of conditions. 1 to 5 ft., 60c; 5 to 6 ft., 10c; 6 to 8 ft., 80c.

Pussy Willow (S. discolor). The earliest spring beauty, making used by florists. The popularity of the species in spring and an increasing desire to have seasonal effects in planting make this shrub very desirable. 10c to 50c each.

Hyacinths

Hyacinths make one of the most bedding plants both for borders and mass planting; they may also be used as a pot plant.

Linnaeus. Pure white.
Dr. Heller. Porcelain blue.
La Victoire. Bright crimson-rose.
Cerulea. Dark pink.
Monardi. Blue bulb, \$1.50 per doz.; holding slip, \$1.00 per doz. (Bulbs available through October November and December).

Cannas

City of Portland. Good deep pink; flowers freely on heavy stalks throughout the summer. 10c each; \$1.00 per doz.

King Humbert. Flowers brilliant red-orange-scarlet with bright red markings, bronze foliage. 10c each; \$1.00 per doz.

Yellow King Humbert. Rich yellow flowers mottled with scarlet, green foliage. 10c each; \$1.00 per doz.

Hungaria. Beautiful salmon-pink; free bloomer and prolific grower, green foliage. 10c each; \$1.00 per doz.

Mrs. Alfred Conrad. This is one of the finest pinks; no extra large flowering variety, green foliage. 10c each; \$1.00 per doz.

President. Dark velvet crimson; strong grower and free bloomer; green foliage. 10c each; \$1.00 per doz.

Peaches

(Two adults per side)

Prices, 4 ft., 25c; 5 ft., 30c each.

Every home garden should contain Peaches and other fruit trees.

The leading fruit of the South—viewed from either the standpoint of the commercial orchardist, the farmer, or for the home—the Peach ranks first. If the right varieties are selected for the locality it succeeds over a wider range of territory.

Hell of Georgia. Large, showy, clear cream tinted; freestone, July 1st to 15th.

Chinese Cling. Very large, red cheek, white flesh, juicy. Ripen July 25th.

Early Wheeler. The largest and most attractive of the early varieties. Strong grower. Fruit white with red blush. A good shipper and fine commercial variety. Ripens in early June. Cling.

Hibberia. Best known commercial variety. Very large, rich, yellow, red cheeks. Good shipper. Freestone.

Indian Blood. It is the large, blood red, juicy clingstone. Peach we used to know when we were boys. Every body that ever knew it wants a few trees, and so we are glad to be able to offer such a general favorite once more.

Pears

Price, 2-year, 1 to 3 ft., 10c each; 10 for \$3.00.

Kieffer, the large size, handsome appearance, a remarkable keepers and shipping qualities make it exceedingly profitable for market. October and November.

Bartlett. Bright lemon-yellow with soft blush. Buttery, juicy and highly flavored! A great bearer. One of the favorite varieties.

Plums

(Prunus Species)

Price, 1 to 5 ft., 10c each.

Coast varieties of Plums are becoming more widely planted. Recent crops of Plums shown the people of the South that there is no better section for their delicate production. The fruit is delicious and brings high market prices.

Vandana. One of the oldest and best known Japanese varieties; hardy and productive. Fruit large, lemon-yellow, with heavy bloom; good quality. August.

Bartlett. It is larger than Abundance and a heavier fruiter. Plant is yellow, almost covered with rich purplish red. The tree is an upright grower and very thrifty—resembling Abundance, but a better tree and very hardy.

America. Tree very thick and symmetrical. Fruit medium to large, yellow with pink cheek. Considered one of Burbank's best productions. A good bearer, July.

Montgomery. A cross between a Plum and a Cherry. Very productive. The most popular fruit of its kind today wherever known. Do not fail to plant at least one. You will never regret it.

Montgomery. A cross between a Plum and a Cherry. Very productive. The most popular fruit of its kind today wherever known. Do not fail to plant at least one. You will never regret it.

Montgomery. A cross between a Plum and a Cherry. Very productive. The most popular fruit of its kind today wherever known. Do not fail to plant at least one. You will never regret it.

Hyacinths

Narcissus

Paper-White. Pure white and very fragrant. Can be grown in water as well as in dirt. Bulbs will bloom in 6 to 7 weeks' time. Large bulbs, 60c per doz.; \$4.00 per 100.

Bulbs Available Through October, November and December.

Paper-White Narcissus.

Peonies

Red, Rose, Pink and White—only leading named varieties. Peonies do well in any good garden soil and the main thing to watch in planting is not to plant deep. Fall planting is best. 3 to 4 large divisions, 30c each; \$3.00 per 10. (Bulbs available through September to January).

Gladioli

Gladioli can be planted in any good garden soil, they enjoy plenty of sunshine and should not be planted in a shady place. In order to have good success with them, keep them well cultivated and well watered.

America. Tremendous pink.

Bulley. Salmon-pink.

Virginia. Dark red.

Schwaben. Yellow blotched with carmine.

Chicago. White.

Mrs. Frank Fendler. Rose-pink on white base lower petals blotched with carmine-red.

Louise. Lavender.

All named varieties, separate colors, 60c per doz.; \$3.00 per 100. Mixed varieties, unnamed, 10c per doz.; \$2.00 per 100. (Planting time and bulbs available from March to May).

Pansy Plants

Strong transplanted plants. Tatonsky's fancy strains, all colors. 50c per doz.; \$3.25 per 100. (Ready October to April).

Perennials

Plant through March, April and May.

PHLOX. White, red, lavender, rose and pink. All named varieties. 2-yr. plants, 20c each; \$2.00 per doz.

DELPHINIUM. Belladonna and Belladonna. Light and dark blue. 20c each; \$2.00 per doz.

COLUMBINES. Mixed colors; choice varieties. 20c each; \$2.00 per doz.

HOLYHOCKS. Double, Red, white and pink. Strong plants. 10c each; \$1.00 per doz.

PHYSOTEGIA (False Dragonhead). Vivid pink and white. 10c each; \$1.00 per doz.

SWEET WILLIAM. Kermislooming. Mixed colors. Strong plants. 10c each; \$1.00 per doz.

Tuberose Bulbs

Mexican Everblooming. This charming stink, pure white Tuberose begins to flower in July and not, thus throughout the season. Plant in April and May. 10c each; 50c per doz.

Yellow King Humbert Cannas.

Dahlias

We have a choice selection of fancy Dahlias tubers to offer of varieties that will stand our climatic conditions. All colors in named varieties. 10c to 50c. (Bulbs for sale from March to latter part of May, April and May planting is best.)

America. Tree very thick and symmetrical. Fruit medium to large, yellow with pink cheek. Considered one of Burbank's best productions. A good bearer, July.

Montgomery. A cross between a Plum and a Cherry. Very productive. The most popular fruit of its kind today wherever known. Do not fail to plant at least one. You will never regret it.

Rose Plants

Red

Bullseye. This is one of the finest blooms we have, crested red flowers on long, stiff stems.

E. G. Hill. A beautiful new red Rose. (See illustration). A variety every Rose lover should have. The each.

Templar. Beautiful dark red; one of the best cut flower varieties; very double and a good keeper.

French Scott Key. Extra large, rich crimson; this Rose has taken American Beauty's place.

Commonwealth. Cherry-red; a very prolific bloomer and very desirable as a cut flower variety.

Helen Gould. Cherry-red; very prolific and a very prolific grower, extra double flowers.

Crusader. This is without a doubt the darkest red Rose out; it is a purplish crimson, very double.

Pink

Birchell. A new soft pink Rose, very prolific and a good cut flower variety.

Columbia. Enormous blooms of clear pink. Extra good for cut flowers, due to long, stiff stems.

Uman Cochet. One of the older varieties, but a very fine Rose, light pink, very double and long stems.

Madame Butterfly. Pink blended with apricot and gold, a very striking shade; long, pointed buds.

Junkeer. J. L. Meek. Carmine-pink at base, the tips of petals are a silvery pink; a very good, large Rose.

Paul Neyron. This is one of the largest Roses, a bright pink, blooms are very double and are their prettiest when open, extra long stems.

Radiance. The finest pink we know. The buds are long, the petals are pink, cup-shaped. A beautiful shade of carmine-pink, flowers on long, stiff stems.

White

Kaiserin Augusta Victoria. Buds creamy, well formed with a slight tint of lemon; very prolific.

Empress Kari Bruchel. This is the White American Beauty. Very perfect in form.

Uman Cochet. White, outer petals edged with pink, a very double, prolific bloomer.

Yellow

Lady Hamilton. Pleasant yellow. Buds of remark able quality.

Sunburst. A wonderful Rose of orange-gold-yellow. Buds are long and pointed; a very good Rose.

Most striking Yellow of all times. One of the illustrations. Tree produced in a Rose, 1880.

Lavender. Copper yellow, very strong grower and a free bloomer.

Climbing Roses

American Beauty. This is one of the strongest growing climbers, will thrive under most any condition. Color a bright red.

Paul's Scarlet. A very prolific grower and free bloomer; a bright flame-red.

Columbia. Clear pink. Monthly bloomer; extra large, double blooms on long, stiff stems.

Uman Cochet. Clear pink. Monthly bloomer; extra large, double blooms on long, stiff stems.

Uman Cochet. Clear pink. Monthly bloomer; extra large, double blooms on long, stiff stems.

Flowering Shrubs

QUALITY—We are grading our shrubs into No. 1 and No. 2 grades. All, however, will bloom the first year. No. 1 are the largest and strongest plants, some varying 4 to 6 feet. No. 2 smaller and lighter. Good stock.

Abelia

Grandiflora. Best evergreen flowering shrub grown of medium height. Thousands of small flowers until frost, 35c, 50c, 75c, and \$1.00. Also note on Evergreen List.

Althea - Rose of Sharon

One of the hardiest shrubs grown, and for single specimens or grouping there is no plant that will give you better results. We grow them in great quantities and can give you plants in assorted colors, white, pink and red-flowering. The plants bloom from early summer until autumn. 50c and 60c.

Buddleia - Butterfly Bush

A shrub not so well known but which stands the heat and drought of summer remarkably well. A strong grower, often attaining a height of 6 to 8 feet. Foliage dark green and very heavy. Throughout the entire summer flowers of violet-purple with orange throat; very fragrant, are borne in long plumes. 35c, 50c and 75c.

New Red-Leaved Japanese Barberry

A real novelty in shrubs. It is only one in a lifetime that a really worth-while outstanding novelty in hardy shrubs is introduced, and in this new Barberry we have such a plant. Strong, 1-year-old plants, 50c each; \$3.00 per doz. Heavy, 2-year-old plants, 75c each; \$7.50 per doz.

Berberis - Barberry

Thunbergii Japanese Barberry. This ornamental shrub cannot be praised enough. Can be used as specimen plant or for hedge, and grows to most any shape, as it stands firming. 12 to 18 in., 35c each; \$3.00 per 10. 18 to 24 in., 50c each; \$4.00 per 10.

Japan Quince.

Steele Hall.

Calycanthus - Sweet Shrub

An old-fashioned shrub that blossoms intermittently all summer, and the flowers are usually very sweet-scented. The glossy green leaves and reddish brown shoots give it a very striking appearance. 2 to 3 ft., 50c each; \$4.00 per 10.

Crepe Myrtle

Few people realize the satisfaction from planting of Crepe Myrtle. When other plants refuse to bloom you can always get the Crepe Myrtle loaded with a mass of flowers. We grow in quantity the pink, crimson and lavender. It is especially attractive for hedging or grouping. 40c and 50c.

Desmodium

Penduliflorum (Leopoldes Stebbins). A fine half-shrub, the long stems of which season's growth usually winter-killed. The stems become stronger, throwing up more shoots and forming a thick shrub 2 to 3 feet high. In showy late summer and October bloom. Arched branches, long, drooping racemes of liquid purple flowers. 2 1/2 ft., 40c each; \$3.00 per 10.

Deutzia

Pride of Rochester. Grows strong and upright, 4 to 6 feet high. Flowers pure white, tinged with blush. 50c each.

Forsythia - Golden Bell

Highly ornamental early spring flowering shrub. Foliage deep green, flowers appearing before foliage is produced. Large bushes. 50c each.

Flowering Almond

Double White and Double Pink. Early spring flowering shrubs, early in full bloom before the leaves appear, with beautiful double flowers of rose or white, anagaling light to the light. 50c and 60c each.

Flowering Peach

A small tree with foliage similar to the peach tree, but the limbs are covered with dainty flowers similar to miniature roses. 40c to 60c.

Flowering Almond.

Bush Honeysuckle.

Golden Elder.

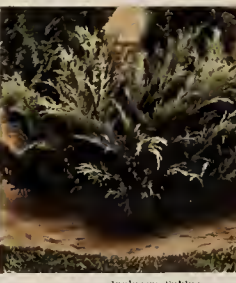

Dogwood, Pride of Rochester.

Lilac.

Spiraea Van Houttei.

Anemone-Solima.

Juniperus Pfitzeriana.

Baker's Pyramidal Arbor-Vitae.

Berkmann's Golden Arbor-Vitae.

Abelia.

Big Values in Evergreens and Flowering Shrubs

Bush Honeysuckle

A fine, handsome, large growing shrub with upright and spreading branches. Foliage bright green, flowers borne freely during May or June, followed by red berries, which cling to the branches for several weeks. A vigorous grower and of easy cultivation. We can furnish this shrub in a beautiful shell-pink, very fragrant. 50c and 60c.

Pomegranate

A large shrub or small tree, which is grown for both fruit and flowers. Small shining dark leaves with scarlet flowers that are followed by large round fruit that ripens in late summer and fall. 2-3 ft., plants, 50c and 60c each.

Pussy Willow - Salix Discolor

A small tree with attractive leaves 2 inches long by an inch wide. Its popular appeal is the conspicuous silky catkins which hang in the fall, and make such delightful "spring" bouquets just as the snow is melting. 40c and 50c each.

Pyracantha

Lalandi (Lalandi Presbiteri). A beautiful sub-variety of Evergreen Burning Bush. Very effective and desirable. Covered with a profusion of white flowers in early spring, followed by bright orange berries, which hang on all winter. Balled and burlapped. 50c per ft.

Russian Olive - Eleagnus Angustifolia

Useful in tall, dense groups for sharp color contrast. Tree attains a height of from 20 to 30 feet, bark dark green, foliage rich silver color, yellow shape. Flowers deep golden and very fragrant, followed by ornamental olive fruits. 60c each.

Sambucus - Golden Elder

Just because we have always thought of Elderberries as a fruit that was good for pies and wine, this plant has been neglected as a decorative shrub, but the golden-leafed variety is especially charming. Its foliage contrasts well, and the sweet scented, fuzzy-like racemes of creamy white flowers, followed by the black fruit, keeps up the interest and brings the fastidious tribes in by your visitors. If you wish an abundant fruit crop and a damp place for them, 50c and 75c.

Snowball

Well known; the large globes of pure white flowers appear in the spring. 60c each.

Salvia, Hardy

A beautiful shrub of recent introduction; flowers a beautiful red, very hardy and blooms from early spring until frost kills the flowers. The leaves stay green all winter. This shrub can be planted in any kind of soil and will stand more drought than any plant we grow. 50c, 60c and 75c each.

Santolina - Lavender Cotton

A dwarf evergreen perennial with attractive silvery white foliage, useful as a rock or border plant, and heavily used for carpet bedding. Field grown, balled and burlapped. 50c each; 6 for \$2.50. Flat plants, 10c each; 12 for \$1.00.

Spiraea - Spirea

There is truly a Spirea for every place, they are almost an indispensable shrub as they vary in size, character and time of blooming. All varieties do better in moist sunny exposures.

Anthelm Waterer

A low growing, very bushy plant that bears small heads of bright crimson flowers in July and August, or you might say on until frost. This variety rarely exceeds 2 feet in height, and is valuable for planting in front of other shrubs. 50c and 75c each.

Burrhead

One of the best pink flowering shrubs, fast grower, profuse bloomer; fine for beds, rows 4 to 5 feet high and 60c each.

Thunbergii

It is spreading in growth with arching branches that are a perfect mass of flowers followed by exceptionally delicate green foliage. For hedging purposes, it has few equals. 50c and 60c each.

Brilliant Wreath (Van Houttei)

The grandest of all the Spiraea. It is a beautiful ornament for the lawn all year around, but when in flower it is a complete fountain of white bloom, the foliage hardly showing. Clusters of twenty to thirty flat, white flowers make up the racemes, and these clusters are set close along the drooping stems. Perfectly hardy and an early bloomer. 50c and 50c each.

Prandialis

This is called the Prandialis Wreath Spiraea. Free flowering, handsome, dark green foliage, turning to orange in autumn. 40c to 50c each.

Tamarix

Tall, graceful, with juniper-like foliage and a great profusion of delicate pink flowers covering the entire surface. A handsome shrub at all seasons. 50c and 60c.

Weigela

Run Ruthe, A gorgeous shrub when filled in early summer with its blood-crimson flowers. 40c and 50c. Run, Run, Run, with fine rose-colored flowers, hardy, and blooms when quite small. One of the most popular and satisfactory shrubs. 40c and 50c.

Vitex - Chaste Tree

A valuable small tree with sage-like foliage; especially attractive because of its pale blue flowers, which are produced in long spikes and which last a long time. Will grow where ordinary shrubs fail. 50c and 60c each.

Evergreens

Evergreens that are moved with a ball of earth can be moved at any time, with an exception of about two months in the spring at which time they make their spring growth. Flowering Shrubs, Trees, Rose Plants, etc., that are moved here should be moved during their dormant season which in our locality is from about December 1st to March 30th. Any additional information you may want on planting will be gladly furnished.

Cypress

Verano. Number one specimen plants. Handsome trees with brilliant silvery foliage of pyramidal habit. 12 to 18 in., 75c; 18 to 24 in., \$1.00; 24 to 30 in., \$1.50; 30 to 36 in., \$2.00.

Savin

A low, many branched shrub, sometimes growing four feet high, but may be kept down by trimming. Its branches are spreading, dense, much ramified and abundantly furnished with foliage. The berries are blackish purple or dark violet, about the size of small currants. It forms an excellent border to larger evergreens. It is also desirable as a low tree in foundation groups and beds. It does well in sunny atmospheres. 12 to 18 in., 75c; 18 to 24 in., \$1.00; 24 to 30 in., \$1.50; 30 to 36 in., \$2.00.

Hedge Plants

Privet

Amoor River. Evergreen hedge. A beautiful dense growing plant with dark green foliage. May be kept closely trimmed in formal shapes or allowed to grow naturally in informal manner, when it will produce quantities of fragrant white flowers in long trusses in spring and early summer followed by purplish black seed resembling small grapes. **Hedging size,** \$5.00 to \$10.00 per 100. Large, sheared specimens, balled and burlapped, 75c to \$3.00 each.

Mahonia

Aquifolia (Oregon Grape). Dense, low, spreading shrub, beautiful holly-like foliage, glossy green, bluish purple and bronze, moderate growth, 3 to 5 feet; exceedingly hardy; blossoms yellow racemes, March to May, followed by blue, grapelike berries. Fine for low shrubberies, mass planting, individual specimens or groups, equally good in shade or sun. 15 to 18 in., \$1.00; 12 to 15 in., 75c.

Nandina

Domestica. The delicate foliage of the Nandina is a brilliant dash of gorgeous orange-red or crimson color in winter. It is dense and stocky, being one of the dwarfish plants of Japanese gardens. The leaves are rich red when young, dark green at maturity, and boldly colored in winter. Nandina thrives well in any well drained, loamy soil, and is fairly hardy. In autumn it is covered with showy clusters of small red berries. This plant is one of the three plants most used in the better class of landscape work. 12 to 15 in. plants, 75c; 18 to 24 in. plants, \$1.00; 2 to 3 ft. plants, \$2.00.

Photinia

Low (*P. dentata*). Moderately upright; large leaves of dark green with new growth first blood-red, then tan and fawn color and in winter some of the old leaves crimson. Big, bushy plants, 75c, \$1.00 and \$1.50 each.

Waxleaf Ligustrum.

er Privet.

Santha

Lalandi (Firethorn). An almost evergreen shrub allied to both the Thorns and Cotoneasters. Small, ovate, shiny leaves set thickly on slender branches with numerous short thorns. Small, white flowers in corymbs, replaced in fall by bright orange-red fruit. One of the finest berried small trees. Can be trained for dwarf massing, as a ground cover; and makes a fine, dense, broad hedge to any desired medium height. Balled and burlapped, 1½ to 2 ft., 50c; 2 to 3 ft., 75c; 3 to 4 ft., \$1.00.

Waxleaf Ligustrum

Lucidum compacta. Leaves are very thick and waxy, the upper surface being highly glossed, of black-green color and under side of a lighter shade. Plant is very compact, heavily branched, ideal in form and development. Grows in shade or full sunlight. In any difficult place it will thrive better than any other evergreen or shrub. Grows to be six feet or more, but so wide and compact can be kept at any height or shape desired. Can be sheared like Laurels and Bays and used in tubs with great success. It has large heads of white flowers, followed by black berries. 1-year-old plants, 15 to 18 in. high, 50c; 2-year-old plants, 18 to 24 in. high, \$1.00 each.

Notice

We also maintain one of the most modern greenhouse establishments in the state. We have over 60,000 square feet under glass that is devoted to the growing of cut flowers for all occasions. Also plants for home decoration as well as annual plants for outdoor planting.

We have been serving you for 18 years in your flower requirements, and we are now equipped to render you a nursery service that is second to none. WOERZ BROTHERS.

How to Order

Write plainly and give explicit directions, otherwise we will forward according to our best judgment. All goods travel at purchaser's risk. We assume no responsibility after delivery in good shape to the forwarding companies.

All prices are net, f. o. b. Ardmore, Oklahoma. Packing charge is free. We advise express shipment, as the cost is little more than freight in small lots and stock gets there much quicker. Small, light packages can go via parcel post, postage should accompany parcel post orders. (15% of list price will cover postage).

Free Service

We maintain a landscape department that will gladly assist you in planning your plantings. If you will send us a drawing of your grounds with measurements of distances we will draw you a pencil plan showing the proper arrangements for your shrubs and what varieties to use to obtain the best effects. A picture of your house will greatly help us in selecting the proper stock.

We also have soil testing equipment that we can analyze your soil with. This is very important if you are to have success with your plants, as no matter how good a stock you have or how well you take care of it, it will not do well unless you have the proper nourishment in your soil. This test is FREE to all that buy their plants from us.

Terms

Cash on delivery unless satisfactory arrangements are made at our office previous to delivery. Woerz Brothers, Florists & Nurserymen.

Guarantee

We warrant our stock to be true to name with the explicit understanding that should any prove not true, we will gladly replace same upon proper proof. We are not liable in any other way and make no further warranty.
